

Table of Contents

- 211. NBTI: Recent Findings and Controversial Topics, *H. Reisinger, Infineon Technologies*
- 212. Charge Trapping in Oxides: From RTN to NBTI, *T. Grasser, TU Wien*
- 221. Reliability and Microstructure of Poly-Si TFTs, *R. Ishihara, Delft University of Technology*
- 222. Reliability in the Implantable Medical Arena, *S. Harelund and D. Scranton, Medtronic*
- 231. Dielectric Charging in MEMS. A Review of Present Knowledge on Assessment Methods and Materials, *G. Papaioannou, University of Athens*
- 232. Reliability Challenges Related to TSV-Integration and 3D-Stacking, *Kristof Croes, IMEC*
- 241. ESD Design Challenges in State-of-the-Art Analog Technologies, *G. Boselli, Texas Instruments Inc.*
- 242. ESD Protection Concepts and Methodology for Modern SOC Designs, *H. Gossner, Infineon Technologies*
